PRODUCT INFORMATION

Hokki Stool.

Stool made from sturdy, durable and extremely scratch-resistant polypropylene, fully recyclable. Slight seat recess, filled with soft plastic foam for comfort.

Thermoplastic base padding screwed to the polypropylene body.

Function: Facilitates free mobility under controlled conditions thanks to rounded set-down surfaces which stimulate the full apparatus of movement. Easy to carry thanks to ergonomic, wave-shaped seat edge for gripping which also prevents the stool from rolling off. The stool is easy to transport and can be stacked with others to save space.

The following materials are available to choose from: Stool = C2 + anthracite (073).
